

The Earth Plan & Introduction to Peopleisim

Peopleisim is enacted when a majority of the people in a region simply sign the Universal Peopleisim Constitution. By far the worlds most advanced, comprehensive & eloquent Constitution, freely available to all to peacefully save Earth.

The most important characteristic of a Constitution is to optimize incentive though checks & balances, bringing maximum benefit to the people, while ensuring security on the land, with justice & prosperity for all. Peopleisim embodies the best features of democracy, socialism, capitalism & communism while avoiding the worst. Peopleisim optimizes incentives to benefit all:

- Real-time voting with a republican form of governance through Boards of Directors with an optional **democratic public override on all decisions**.
- 32 days annual Citizen Service, makes up the government including politicians, police, military, judiciary & services, **eliminating tax**.
- **Open equal access to public & natural resources** grants top bidders lease rights, replaced at any time by a proposal with 20% higher return to the people, **eliminating corruption & maximizing the peoples income**.
- **Instead of politicians deciding what to do with the people money**, income is **distributed equally to each citizen**, eliminating poverty & corruption.
- Citizens own a **tax free Homestead** of up to 2,000 m², providing **security on the land**.
- **Free digital education** available to all. Parents & students govern their education funds.
- Innovative asynchronous adjudication & Due-Process at Common Law, with Administrative Meetings, Mediation & Trial by Jury, ensures economic, efficient & fair **justice**.
- Intellectual property laws **benefit** authors & inventors, & opens up production.
- Free peoples banking & trading with asset-backed currency, **eliminates banking fraud & crimes against humanity** & invigorates the economy.
- **Restitution** & much more.

Peopleisim ensures **fairness & equity of access to public resources**, **eliminating corruption & maximizing the peoples income**, **eliminating poverty**, while providing the people **security on the**

land. People based governance **eliminates tax**, enabling an **economic boom**, establishing a stable sound economy, while **protecting authors & inventors** to **invigorate development** & progress. Sound asset-backed **free banking & trading eliminates fraud**, corruption & market manipulation. Innovative due-process prevents corruption in the courts & delivers low-cost **efficient & fair justice for & by the people**.

Peopleisim delivers a new political & economic model, taking advantage of the best of earlier political & economic models, while eliminating the disadvantages. **Peopleisim is a paradigm shift** in governance, law, banking, security, intellectual property, technology, economy, education & ecology. A new Earth & new way forward, promising prosperity, peace, security & liberty for all.
