

Forth Universal Peopleism Constitution

All people are free & equal. In the determination of our future, we, the people, grateful for our freedom, in order to secure the blessings of justice, liberty, life, peace, security & the pursuit of happiness, & above all love, do establish this Constitution.

*As opposed to Stateism where the State is declared sovereign, enslaving the people under State police, courts & military, & in determining what to do with the people's money & resources; As opposed to Capitalism where Corporations are "people" who buy out politicians, who rule the State, which taxes the people into involuntary servitude & slavery; As opposed to Communism & Socialism where the State is declared a person, enslaving the people by taking State ownership of everything that belongs to the people: **We support Peopleism**, where governance is by the people for the people; Where the earth & it's resources belong to the people; Where the peoples government distributes revenue from the peoples resources equally to each Citizen; Where Citizens own & are secure in their Homestead; Where Citizens can move about freely without papers & passports; Where there is no tax, no licenses, no duty; Where banking is free with a people owned asset-backed currency & bank.*

We the people establish Peopleism to take back governance to ourselves & to establish a prosperous, peaceful, sustainable & ecologically sound civilization.
